

# Setting Up Application Environment

## Create IBM Cloud CLI

### Step1:

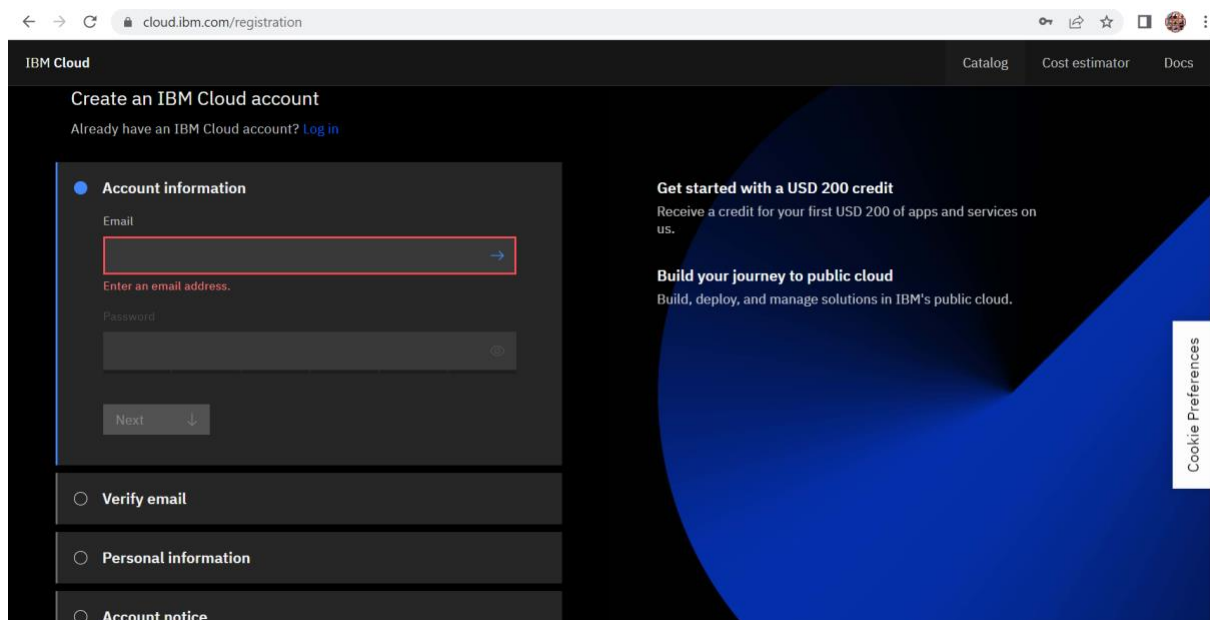

Click the Link

<https://cloud.ibm.com/registration>

### Step-2:

Enter Your Email

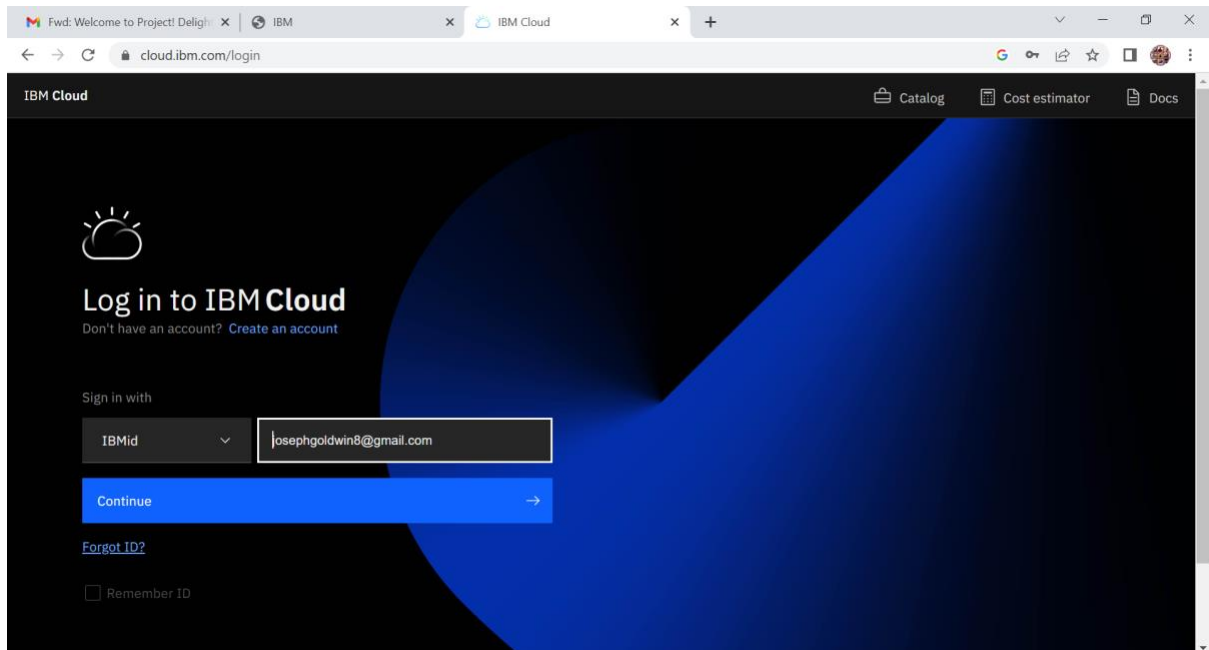

Enter Your Password

The screenshot shows the IBM Cloud registration page in a web browser. The browser's address bar displays "cloud.ibm.com/registration". The page has a dark theme with a blue and black color scheme. At the top, there's a navigation bar with "IBM Cloud" on the left and "Catalog", "Cost estimator", and "Docs" on the right. The main heading is "Create an IBM Cloud account", with a link "Already have an IBM Cloud account? Log in" below it. The registration form is divided into sections: "Account information" (selected with a blue dot), "Verify email", "Personal information", and "Account notice". The "Account information" section contains an "Email" field with a red border and a blue arrow button, a "Password" field with a red border and a blue arrow button, and a "Next" button with a downward arrow. Below the form, there are three radio button options: "Verify email", "Personal information", and "Account notice". To the right of the form, there's a large blue and black graphic with the text "Get started with a USD 200 credit" and "Build your journey to public cloud". A "Cookie Preferences" button is visible on the right side of the page.

### Step-3:

#### Login

### Step-4

#### Open the Cloud CLI
